BRAND STORY

Back in the early 80s, when individual TV ownership was a luxury and homes with a Television were the pride of an entire neighborhood, Clarion started manufacturing Television sets in Kolkata. Looking back, we realize how our name became a clarion call to raise the bar with openness, initiative and determination.

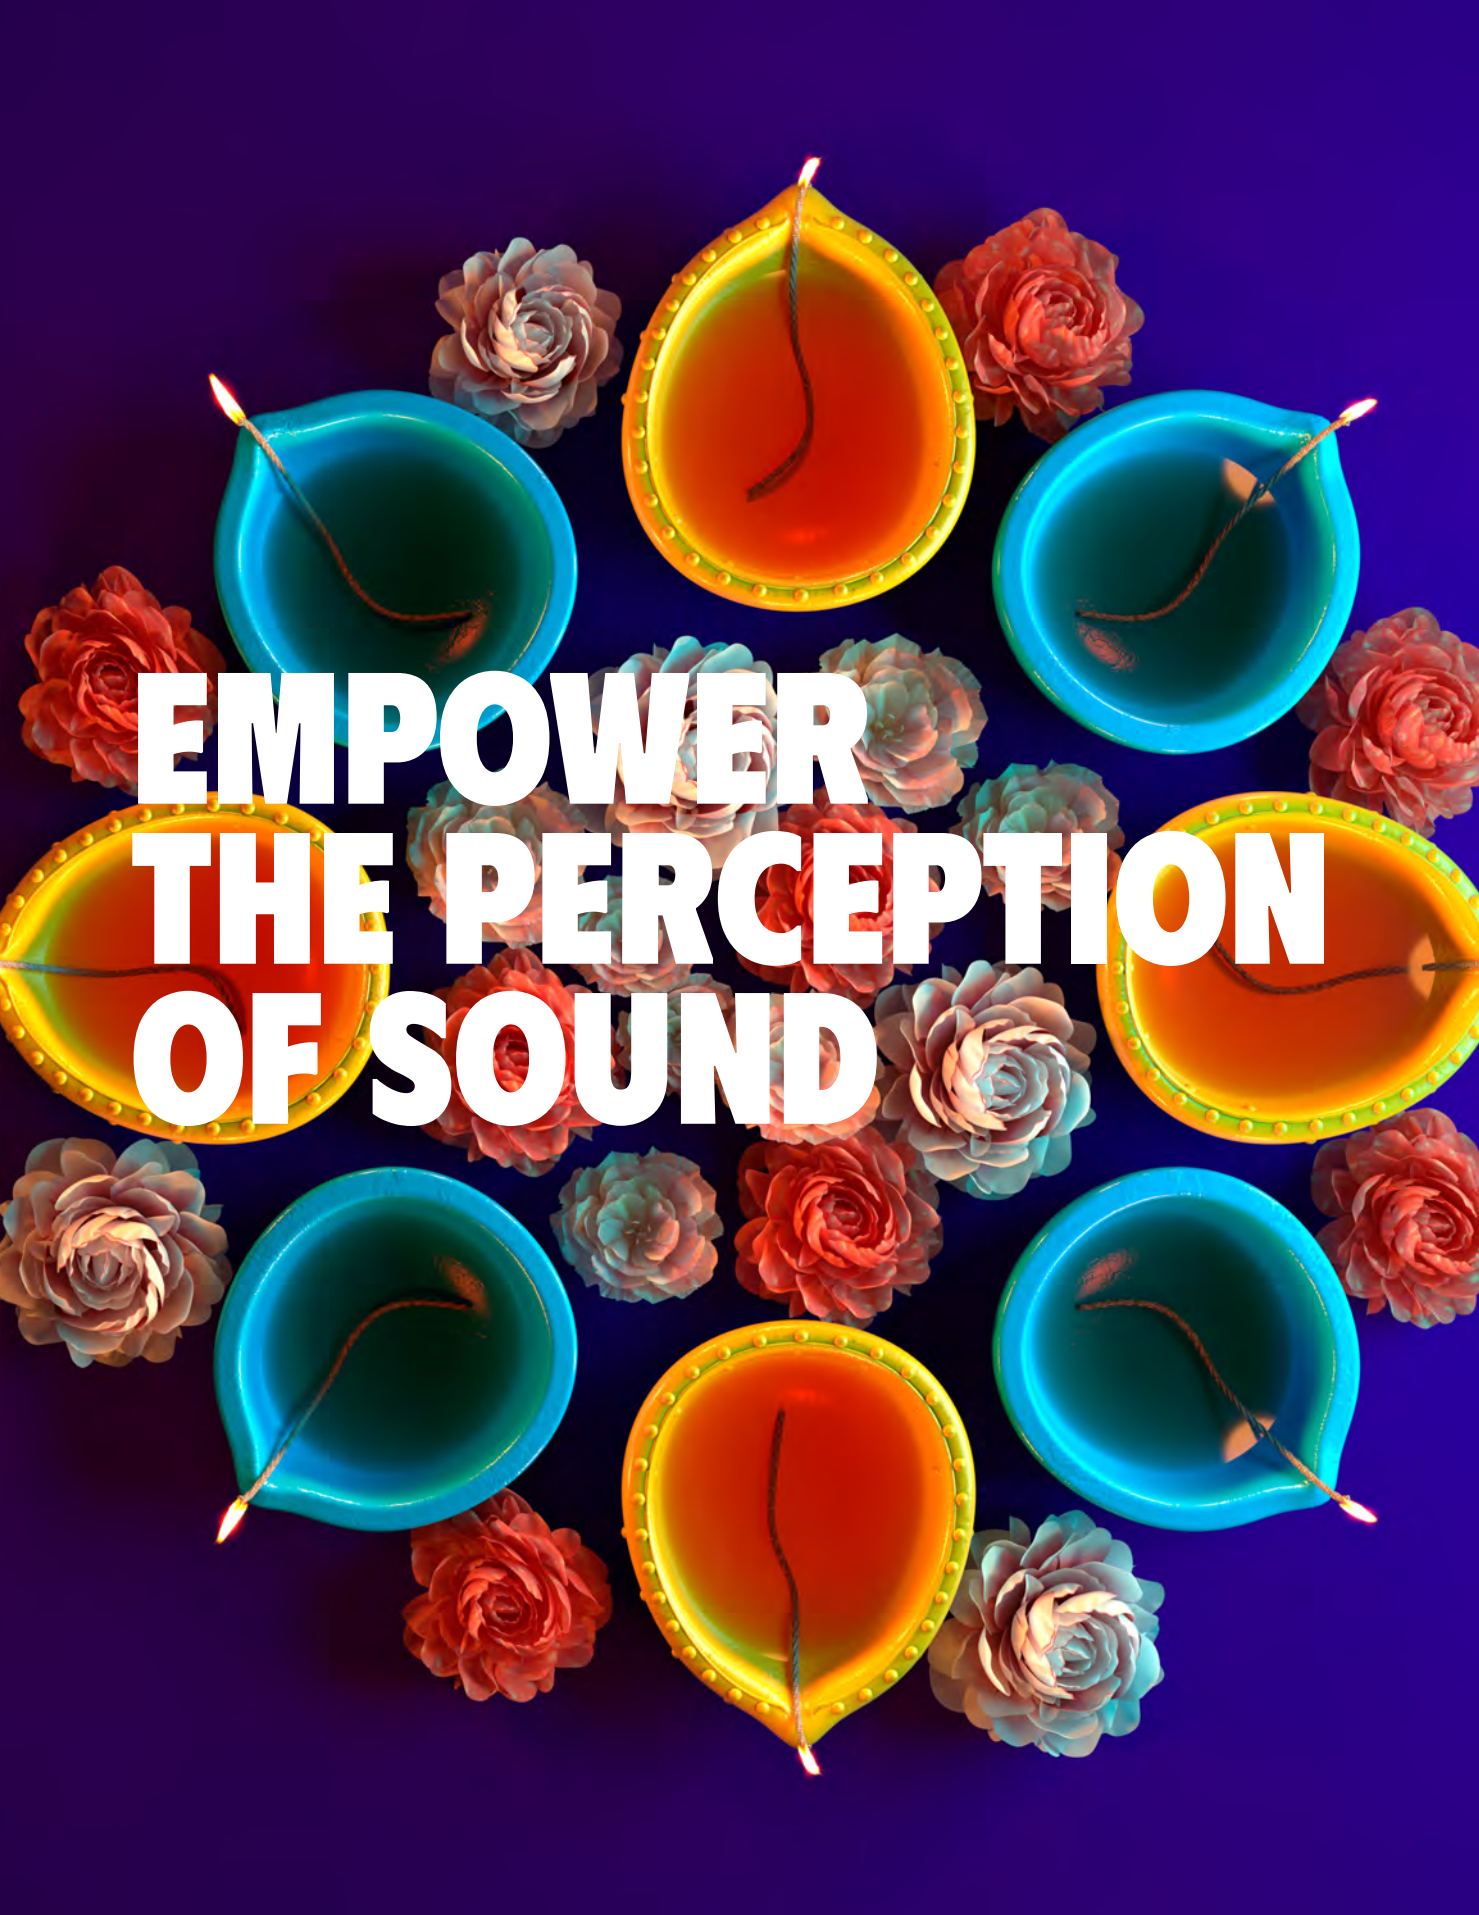

Clarion's strides with emerging technologies has taken many big leaps over the past 43 years. Distribution of IT products which we started in 1995 still continues to this day alongside India's well-earned glowing stature in the IT sector, globally.

Clarion DVD Players and Multimedia Speakers launched in 2001, segued the popular mass entertainment content trend over National Television & Radio Channels to bring home the freedom from appointment listening and viewing routine. Clarion homes were experiencing self-appointed entertainment suited to their personal taste, regularly.

We grew into "The World of Entertainment" alongside a growing portfolio. Today, Clarion portfolio meets Audiophiles with LED TVs with built-in Soundbars, grows living spaces taller with Tower Speakers, triggers creativity with DJ Mixers, lights up Professional stage presence with futuristic Sound Technology, Power Amplifiers, Line Array, PA Systems, Transducers and so on.

Clarion is evolving the world of entertainment into 'Sound Profound'. We exist to empower the perception of sound, because we believe every sound can be profound if we could hear it.

SOUNDBAR SPEAKER SYSTEM

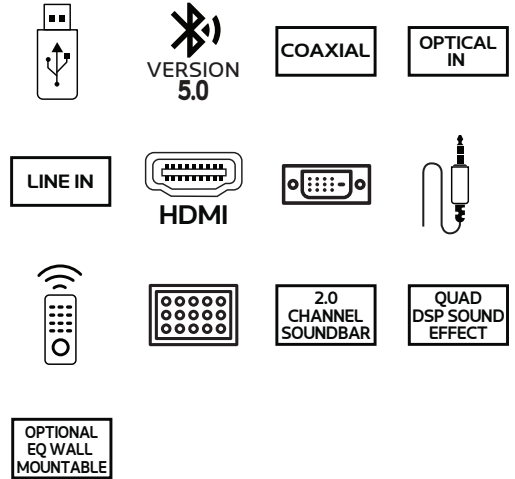

A close-up photograph of a woman's hands holding a coconut on a brass pot. The woman is wearing traditional Indian jewelry, including a gold necklace, bangles, and a red and gold sari. The coconut is tied with a red string and is placed on a brass pot with intricate carvings. The background is softly blurred, showing more of the woman's attire and the warm, golden light of the scene.

A woman in traditional Indian attire, including a green blouse and an orange saree, is captured in a dynamic dance pose. She is adorned with extensive jewelry, including a large necklace, earrings, bangles, and anklets. The background is dark, and the lighting highlights her form and the intricate details of her costume and jewelry. The text 'MOVING SOUND MOVING' is overlaid in large, bold, white capital letters across the center of the image.

2.1 MULTIMEDIA SPEAKER

A close-up photograph of a speaker. The main part of the speaker is a circular yellow grille with a fine, woven texture. In the center of the grille is a smaller, black, dome-shaped tweeter. The speaker is set against a dark, possibly black, background. A bright, curved light source is visible at the top, creating a strong highlight on the black frame of the speaker.
